Having An Akashic Records Reading?

'Akashic' or 'Akasha' means aether, or 'that which penetrates all there is'. An Akashic Records reading differs quite a bit from an intuitive or psychic reading. Edgar Cayce is one example of a very famous Akashic Records reader in the USA. He would put himself in a light trance and read people's records to help them with their health. Many doctors still use his recommended treatments today.

Imagine a theatre, with yourself on the central stage. One spotlight is switched on, and you see yourself in a beam of light. Imagine that the image you are seeing is yourself in this life. The intuitive light shines in detail on you or one aspect of yourself at a time if we ask different questions. We like this as humans, because we exist in our bodies in 3D, so 'one thing at a time' and in and through time - e.g. the timeline of our life - is very familiar to us and therefore more comfortable.

Now imagine multi-dimensional spotlights shining on every aspect of yourself. *Your soul, your emotions, your mind, your energy systems, your body, your relationships, your past lives* Everything is illumined - and you can look where you want, when you want, whenever you choose to open the records. It would be way too much to deal with at one time from our human perspective! How would we process all of that information?

The information is about your soul, an infinite resource of help and guidance - *outside of space and time.*

New World Energetics - Connecting You With Your Energy In A Whole New Way

Well, that's where Akashic Records Readings come in. I use the Pathway Prayer Process to open your Akashic Records and we can use very pointed and focused questions to read the matters at hand, those matters that are most pressing to you from the Soul or Higher Self's perspective.

Useful questions to keep in mind when having an Akashic Records Reading

Since we are asking questions at the Soul Level, our language needs to be a little different. After all - we are outside of space and time! Here are some great questions you can mull over related to any problem, circumstance, thought process or restriction you wish to bring to light during your reading. They will all get the energy moving and help you get the most out of a reading.

Great Questions to Ask

- What are the spiritual themes and motivators at this time in my life?
- What is the true nature of this difficulty?
- When did it begin? What were the circumstances?
- How does this problem help me to become more aware of my essential goodness?
- What are the advantages of this option?
- What are the disadvantages of this option?
- How can I best progress my relationship with my _____? (fill in the gap)
- Why am I having difficulty with my _____?
- What is the best path for my spiritual development at this time?

Describing a problem also helps - we can have a normal conversation in the light of the Records and *the energy will start moving around the problem as you describe it* - then we can really get things moving!

If you start to feel stuck, another great question is "Is there anything else I need to know?"

I hope this helps, and I look forward to connecting with you soon.
